Lagos, Nigeria.

abdulnasirpopoola@gmail.com | +2348125500763

SUMMARY

Ingenious final year medical student with experience in healthcare research, development and programming. Experience deploying scientific research skills to develop solutions tailored towards adolescent health and maternal health challenges in Africa. Possess a fundamental knowledge of HTML, CSS and JavaScript. Equipped with excellent organisational skills, leadership skills and multidisciplinary decision-making skills. Seeking to build upon my experience and deploy my expertise to build cutting edge health technology solutions across Africa.

EDUCATION

University of Ibadan, Ibadan, Oyo State, Nigeria. Medicine and Surgery (MB;BS) March 2015 – September 2022

- Completing modules in Medicine, Obstetrics and Gynecology, Surgery, Pediatrics, Family Medicine, Psychiatry and Radiology
- Completed modules in Human Anatomy, Human Physiology, Biochemistry, Pathology and Pharmacology.
- Conducted a women's health research project on the autonomy of women and their utilization of maternal health services—providing a background framework for the development of solutions that would improve accessibility to maternal healthcare services and reduce the high rate of maternal mortality in Nigeria.
- Received an excellent grade in an otorhinolaryngology presentation on Nasopharyngeal Tumours, in recognition of excellent research, presentation and public speaking skills.
- Conducted in-depth research on various healthcare-related topics and delivered over 10 scientific presentations in the departments of Medicine, Surgery, Social Pediatrics, Family medicine.
- Served as the subgroup leader to over 40 students in my Pediatrics and Community Medicine postings, coordinating both physical and virtual tutorial activities and scientific presentations.

WORK EXPERIENCE

I4G Zuri Training Program (Intern).

March 2021-To date.

An intensive 3-month training program organised to equip the next generation of technology leaders with programming and leadership skills.

- Completing modules in HTML, CSS and JavaScript.
- Participated in in-depth virtual training on HTML, CSS and JavaScript, equipping me with the skills to build health-related technology solutions.

Rural Health Care Posting, University of Ibadan, Nigeria. (Assistant Team Lead)

March 2021-To date.

A 2-month rural healthcare posting established to equip students with outstanding healthcare research skills and excellent healthcare development skills.

- Led a 10-man team to analyse pressing public health topics and draw up research questions.
- Coordinated discussion groups after individual research by team members, leading to a 40% increase in efficiency in activities.
- Compiled research outputs from team members and assigned tutorial topics to team members.
- Completed modules on the use of Statistical Package for the Social Sciences Software (SPSS) for data analysis.

- Completed a module focused on the development of research proposals—equipping me with the relevant skills to develop research proposals in line with acceptable global standards.
- Analysed secondary data on the Perception and Attitude of secondary school teachers in a South-western community on teenage pregnancies — This provided a background to establish solutions and possible policies that ensure optimum adolescent health and a reduction in the high prevalence of teenage pregnancies in Nigeria.
- Delivered presentations and research proposals on; Controlling Hazards and Preventing Injuries in Rural Small and Medium-Sized Enterprises, Patent Medicine Vendor's knowledge of Hypertension and Treatment of Presumed Hypertensive Patients in Igbo-ora, South-West Nigeria.

TRAINING AND CERTIFICATIONS

West African Bioethics Training Program

March 2021

- Completed the Collaborative Institutional Training Initiative (CITI) Program Course: Human Research Group 1 Investigators Basic Course. (earned a score of 99%)
- Completed the Collaborative Institutional Training Initiative (CITI) Program Course: Nigerian National Code for Health Research Ethics(earned a score of 100%)
- Completed the United Nations Climate Change E-Course: “CLIMATE CHANGE FROM LEARNING TO ACTION.”

VOLUNTEER EXPERIENCES

- **Volunteer for the University of Ibadan Climate Learn Team:** I regularly organize and participate in a series of enlightenment programs geared towards educating over 1,000 youth about the effects of climate change and the various ways to help take action against climate change and its impact. This is in line with **Sustainable Development Goal 13.**

SKILLS

- Proficiency in HTML, CSS, and JAVA script(Beginners level
- Good Analytical and Computational Skills
- Excellent Research skills
- Teamwork Skills
- Critical Thinking Skills
- Effective Communication Skills
